There are many different types of minecraft servers that you can connect to. One version is a Survival Server. This server is based around you surviving on the land for as long as possible without the knowledge of where other players are in the world. There are small challenges and objectives given to you by NPC characters in game that will give you rewards and help progress you through the game.",

"Rust"s primary gameplay revolves around gathering resources and crafting items in order to survive in a harsh environment riddled with other players. The primary task is to craft weapons, beginning with only a rock and a torch as tools at the beginning of the game. Once enough resources are gathered, tools such as pickaxes can be made in order to speed up collection of resources which are spread randomly across the map. These resources include wood, stone, metal as well as a variety of gas canisters and cloth/thread. Later on in the game, electricity can be generated by large generators requiring the same gas canisters found earlier in the game.",

Players can build a prison and players that break rules or have broken blocks will be punished by being released from prison. Hunger Games Servers: Players go to survival maps and try to outlast each other by surviving as long as possible without breaking blocks.",

The game utilizes a block-based mining and crafting system. As in Minecraft, players can gather resources such as blocks of wood, stone, ores, plants, and foodstuffs from the environment to use in crafting. While players are able to craft a variety of basic weapons such as axes and swords using these materials, they will need to gather blueprints for advanced items such as firearms and explosives. The game features combat between players where every player has access to health regeneration; this prevents battles from lasting indefinitely and makes it more viable for players to attack each other with melee weapons instead of guns.",

How do I Join a Minecraft Server? â€œ There are multiple ways that you can join a Minecraft server depending on what type of mod support it offers. The first way that you can join a server is by manually entering the IP address or host name into your internet browser. When this page loads, click on one of the available selections and then select to join it. If you are using a Bukkit or Tekkit server, then you will need to download their respective client before connecting. The instructions for downloading and connecting to these servers are usually included in the website's instructions on how to connect. The other way that you can join a Minecraft server is by joining through another Minecraft user who is already online. If someone invites you then all that you have to do is click on their name and it will take you directly there.",
