Once you know the IP address, visit the Minecraft Server Hosting Provider's web page and find the info about how to connect to it. You can either give them your Minecraft username and password or you can access their information directly by typing in the IP address into their website. If you are using a Bukkit or Tekkit server, then all of this should be included in their instructions for connecting. With an individual server, you may need to read through these steps again if there are any slight differences between your own personal server and the one that you are trying to connect to.",

The game was originally named "Pixelmon"™ by the creator of Minecraft, Markus Persson (also known as Notch). It was inspired by crafting games like Little Big Planet and the popular multiplayer game World of Warcraft. Minecraft, like World of Warcraft, is a game that is played in a virtual world. It does not have a storyline or character progressions like most RPGs do. Instead, Minecraft offers players the possibility to build almost anything they want. You can create the same things that you see in Minecraft with your own imagination and creativity.",
