Rust is primarily played on Slither.io, an online multiplayer server based in Germany with the majority of servers based in North America. Rust has been praised as being "pure fun" and "a breath of fresh air", while criticism included the poor graphics compared to other survival games such as "Minecraft". Due to its ability to be played on servers without custom content, it is also much less popular than Minecraft due to better compatibility of graphics with other graphical engines. On January 7th 2021, Steam announced that "Rust" had officially passed 10 million sales, and by August 2021, the game had sold over 3.5 million copies alone on Steam. As of April 20th 2021, "Rust" has sold over 5 million copies across all platforms including Steam."

There are many different mods for Minecraft and sometimes they can conflict with each other. For example, some mods may override the resource packs that you have selected in your game settings menu. Modpacks are generally okay because the creation of them is based on sharing resources between multiple mods, but sometimes this can cause problems. If your modpack stops working or causing errors, it is a good idea to change the settings of the modpack to see if it lets them work again.",
